Dear Mr. Prochnow:

Mr. Darling of Chicago has told me that you will be glad to arrange for a luncheon or dinner in Buffalo for the Buffalo and Niagara Falls graduates of the University of Toronto particularly in view of the proposal that a graduate fellowship should be established by the Alumni who are resident in the United States. I myself will be glad to go over to Buffalo some evening in January, if you will let me know what day would be most suitable for you. As far as I can judge the week beginning Monday, the 17th, is comparatively free, but the distance is so short that I can probably arrange matters to suit your convenience.

Dear Sir:

Your letter of Dec. 14th regarding a University of Toronto Alumni banquet in Buffalo has been received and in reply thereto I regret to say that I have so far been entirely unable to see any of the Buffalo graduates in regard to this subject. Shortly after my correspondence with Mr. Darling of Chicago a great rush of work came into the office which has required my entire time.

It is further very necessary for me to be out of the city for some time in the very near future. I shall, however, make an attempt to see some of the graduates with a view of getting them interested in the proposition of interviewing others, both in support of the American fellowship and the banquet, and will write to you as soon as I have something more definite to offer.

Trusting that I may have a favorable answer for you shortly,
I remain,

Yours sincerely,

Dear Sir:-

I am taking the liberty of asking you to have my standing in Medicine for M.B. Examination looked into. I was reported as having failed in both written and clinical medicine. This seems rather strange to me for the following reasons:

1. I passed satisfactorily on all the other subjects of the fifth year.
2. I passed the Examinations of the College of Physicians and Surgeons in all subjects including written and clinical medicine. The Examination in medicine was a severer one than for the M.B.
3. I was awarded excellent term marks for my work at the Western Hospital and feel every confidence in referring to Drs. Clarkson, John Ferguson and Page.
4. I requested that my standing be re-considered by the University, and received a reply that I

could not be allowed my standing in Medicine.

5. I am sure, by the best of authority, that there has not been a meeting of either the Memorial Committee, or of the Medical Faculty, and consequently feel that my case could not have received full consideration.
6. If I am granted my University standing in Medicine and thus my M.B., the Medical Council will confer me my license at once.
7. I am very anxious to proceed overseas at the earliest possible moment as I have a provisional appointment with the R.A.M.C., and thus give the service which I humbly owe my Empire at this very critical crisis thru which we are passing at the present time.

In consideration of the above facts, I feel that you will have this matter looked into without delay.

Yours faithfully,

Edgar Christian Pugh.

I have your letter of June 12th asking me to give your
 attention to the matter for the H. B. Association. I have
 to my regret the matter has been delayed until to-day. I have
 just received word from the Secretary of the Faculty, and
 from the Assistant Secretary of the Council. I find that your
 case was considered by the Committee on Nominations after you had
 petitioned and that the Committee has now reported favourably with
 regard to your application. Also, I learn from the conversations
 that I have had that there is no likelihood of the Committee
 re-considering its decision after it has given its recommendation.

I am sorry that we have not seen anything of you and yourself since last summer, but we have had a good deal of sickness since our return and have been unusually upset.

My dear President Falconer:

The authorities in charge of the Bureau of Education at Washington have insisted that we keep the report of our proceedings within certain restricted limits. On going over the various set speeches and other important contributions at our gathering, we find that, in order to get an adequate report within the space allowed, there must be considerable contraction. We have abridged all the set speeches, but are submitting the abridgments to the various authors in order that they may either cut down further or substitute other passages here and there. Will you do this with your speech so that we may have a copy which is satisfactory to you but which does not exceed the space which we have been able to give it?

We regret very much, certainly in your case, to be forced to make any contraction whatsoever because all the matter was so good that it was difficult to see what we could afford to spare.

I have a carbon copy of what I am sending you and unless you return a different version, I shall use the carbon of the enclosed as official copy for the Bureau at Washington, to be sent March 30th.

Very sincerely yours,

Frederick B. Robinson

Dear Mr. Robinson:

I have not had time until to-day to read through
the manuscript of the address that I gave in Cincinnati which you
have sent to me. I think that it is very well done and I have no
essential changes to propose in it. There are one or two verbal
changes but probably not sufficient to warrant my sending them to you.

Yours sincerely,

Dear Mr. Roper:

I have received your letter. I am sorry that
 owing to illness I am not able personally to attend to it, but
 I am forwarding it to Mr. Clark, the head of the faculty of
 medicine. He has some free time and will attend to it as soon
 as possible. I am sure that he will give you the best of
 advice. I am sure that you will find your son to be a
 very capable, intelligent, and well educated individual through
 his education in the United States.

It is a pleasure to hear that you have been able to
 see your son, and the sacrifices that have been made by their
 parents. With kind regards, and hoping that your son will soon
 return.

I am,

Yours sincerely,

President.

2nd Canadian Division, C.F.A.

Dear Mr. Roper:

I was glad to receive your letter a short time ago and thank you for sending your name which I am having added to the list of those from the U.T.C. and students of the University now serving at the front. Our list is growing rapidly. We have about 2500 graduates and undergraduates on active service.

In the entrance hall of the Main Building we are erecting a temporary form on which will be placed the names of those on active service and yours will be among them.

We hear pretty often from individual students and always get their letters with pleasure. Each letter tells one something that completes the picture of the service, which I am sure is often very tedious. However, you are serving not only in a just cause but in a winning cause. Probably we realize after better than you do the trend of affairs, as we receive so much word from different quarters. We hope that by this time next spring the war will have been a thing of the past.

Our term is about closing, and already we have begun a new Summer Session for 4th and 5th year students who are to enlist for active service at the beginning of the winter. This will mean that our 4th and final years next winter will be very small. There are about 21 fifth year students who have returned from the front.

fifth year students who have returned from the front.

There is constant drilling of soldiers on our front and back lawns, - a great change from the old days.

I hope that you will be protected from injury and that you will come back safe and sound before many months go by.

With kind regards, I am,

Yours sincerely,

President.

Dear Sir:-

In reference to my letter to you in regard to Mr. Henderson's letter in 'Varsity' and your reply to Principal Howell, here, I beg to say that the letter was entirely mine, although written after consulting him. The lack of my signature was entirely an unintentional oversight.

I am very much obliged for your reply, and assure you it was much appreciated. In view of more recent events at the University especially the ^{latest} scheme of the C.O.T.C. officers and others to secure enlistment of the students, however, I must say that your reply does not convince me that ^{undue} pressure is not being brought to bear to ensure enlistment.

Yours very respectfully,
H. S. Rosevear,
